THE STORY OF OUR POM FRITES

Our Pom Frites are made from a unique Dutch potato, selected for its texture and flavor. Sustainably grown by a single farmer on mineral-rich sea clay close to the North Sea.

The fresh potato is turned into crispy Pom Frites through a natural process, without additives. Fried in high-quality sunflower oil and finished with hand-harvested sea salt from Bretagne.

This dedication to quality and craftsmanship led us to become world champions in french fries at the World Championship in Arras, France in 2024.
